

Melee Testing Services Price List (USD\$)

IIDGR offers two different melee testing services:

1. **Full testing Service** for all goods sent to us; or
2. **Referrals Testing Service** to test any referred stones from an Automated Melee Screening (AMS) instrument or other front-end screening instrument you may have already used.

| | Average stone weight per Lot (carat) | | | | | | | | | |
|----------------------------------|--------------------------------------|----------|----------|----------|---------------|---------------|---------------|---------------|---------------|---------------|
| | 0.0013 | 0.002 | 0.003 | 0.0038 | 0.005 - 0.010 | 0.011 - 0.022 | 0.023 - 0.050 | 0.051 - 0.091 | 0.092 - 0.154 | 0.155 - 0.190 |
| | Size Bands (mm) | | | | | | | | | |
| | 60 - 70 | 71 - 80 | 81 - 90 | 91 - 100 | 101 - 130 | 131 - 190 | 191 - 220 | 221 - 305 | 306 - 340 | 341 - 385 |
| Pricing (USD\$) Per Carat | \$10 p/c | \$10 p/c | \$10 p/c | \$10 p/c | \$10 p/c | \$10 p/c | \$10 p/c | \$10 p/c | \$10 p/c | \$10 p/c |

1. Full Testing Service

- This service is for melee goods which have not been pre-screened.
- There are ten ranges of average stone weight given.
- Each Lot will be charged at **\$10 per carat**.
- For a typical parcel of natural diamonds that have not been pre-screened the referral rate is expected to be less than 5%.

2. Referrals Testing Service

- This service is for melee goods which have been pre-screened.
- There are ten ranges of average stone weight given.
- Each Lot will be charged **\$10 per carat**.

Please note, we will charge for goods which do not meet the criteria set out in the Terms & Conditions of the service. For example, parcels of stones which do not meet our requirements of cleanliness and will therefore need to be cleaned by us before screening. There will be a flat \$5 fee per parcel which will need any preparation work, such as cleaning or sieving, as well as \$5 for any rejected parcels.
